- Ministered the Word of God in seven big and small conferences.
- Donated 3 two-wheelers for the rural workers & distributed several hundred Bibles and literatures for the seekers.
- Ministered in two family seminar programs with couples from India & Bhutan.
- Supervised the Good Books and TLA Educational trust and a team of 42 staffs all over India.

- Supervised a strategic ministry team in Bhutan.
- Recruited four new staffs and mentored them.
- Added four new languages for the Radio program productions.

- Progressed in legal acquirement of the 4.9 acres of land, Contour survey and Master Plan for the dream of the Center of TLA.
- Helped in publications of four Hindi and English books through the Good Books and TLA Educational Trust.

I am grateful to God for all the above blessings and for your valuable prayers and support. However, I must confess, at times as a human being I get disillusioned and feel lonely. The vision to build His Church in Asia through establishing His people in the word of God and by building a Center that will continue such a vision is too big. Sometime, I long to see a sign of assurance and the divine reaffirmation of this vision. Other time, I wish this burden is taken away from me. Would you please pray with me that the Lord shall give clarity, and that I shall find peace and be found faithful in His service in 2018?

May the good Lord bless you a very prosperous New Year.
